

## **SPANISH + ARTS AND CRAFTS COURSE**

**Cuenca** is a city with an important tradition in both traditional crafts and contemporary arts and the Arts & Crafts programme is based on this unique feature.

The programme includes 20 lessons of Spanish lessons and 10 lessons of Arts and Crafts lessons per week.

Students enrolled in this special programme will receive hands-on training in traditional crafts such as weaving, hand crafted and wheel-turned pottery and basketry. The arts field training available includes painting and drawing as well as traditional and contemporary dance, theater and corporal expression.

This programme is aimed at students who, in addition to the Spanish and culture lessons, are searching for ways of self-expression and leisure. We strongly believe that this program will be a very enjoyable one and Cuenca is one of the best places for such an experience.
